

JOCO STONE. Design: EOOS.

The pure aura of the material. Joco Stone conveys ostensibly paradoxical impressions. The marble table top seems to float elegantly in space. The fine lines of the delicate framework and the premium quality of the natural material merge. Precious and fine – the natural stone demonstrates modern grandeur. Joco Stone comes in four sizes, in marble or in onyx marble.

Product description

Design awards

Table top

Natural stone:

- Nero Marquina (.115)
- Noir Saint Laurent (.116)
- Onice Champagne (.117)

Top thickness natural stone: approx. 20 mm.

Due to the way they are manufactured, the size of natural stone tiles can vary by +/- 1 cm.

Marble is a natural stone and can be damaged if subjected to mechanical loads, or if it comes into contact with acids, fats or oils. The surface is irregular and has a porous structure - veins, pores and inclusions are natural features. The surface must be caulked so that the material can be worked. Every piece of marble is unique.

Base

Steel:

- powder-coated bronze matt
 - powder-coated black matt
 - brass finished (for surcharge) for 130-T7 and -T8 available.
-

Glides

Fitted with synthetic glides.
